

# Square Foot Gardening

## Blank 4' x 4' Grid

### Plant spacing for your square foot garden

#### Plant 16 per square

- radishes
- carrots
- onions
- beets

#### Plant 9 per square

- peas
- spinach
- beans

#### Plant 4 per square

- lettuce
- swiss chard
- herbs such as parsley, cilantro, chives, & oregano
- potatoes
- strawberries

#### Plant 2 per square

- cucumbers-Grow on a trellis for best results.

#### Plant 1 per square

- broccoli
- cauliflower
- cabbage
- eggplant
- pepper
- basil

#### Plant 1 per 2 squares

- cantaloupe-Grow cantaloupe on a trellis
- winter squash-Grow vertically on a trellis.
- watermelon-Just like cantaloupe be sure to grow on a trellis. Otherwise they will take over your entire garden.

#### Plant 1 per 4 squares

- summer squash-For best results, choose a compact variety like Sunburst if possible.
- tomatoes-They will either need to be staked or grown in a cage.
- zucchini-Just like summer squash, choose a variety that is compact such as Raven if possible.
